

## Data Sheet

## Riblath

This product is manufactured from similar material expanded metal lathing, but is stiffened by the longitudinal ribs. It is ideal for suspended ceilings and partitions and is extensively used in external rendering. Support centres can be widened using Riblath and sheets can be held together with tying wire.

**Sheet size:** 2500 x 600mm

**Gauge:** 0.4mm

- All galvanised materials are manufactured from steel to DX51.BSEN 10142 (g 275).
- Stainless steel materials are manufactured from steel to EN 10088-2 grade 1.4301 (standard supersedes BS1449 Part 2: 1983 grade 304 S15).
- Manufactured in accordance with BS1369 Part 1: 1987.

Description	Size	Unit
